📍 San Diego, CA

EDUCATION

San Diego Mesa College

Associates of Science: Web Development

📅 Expected August 2022

📍 San Diego, CA

- Major GPA: 4.0

PROJECTS

Github API

- Used Github's public REST API to extract JSON data and display user information such as profile picture, user data and information, and repositories.
- Created using the React library and JavaScript

'Simple-Roast' E-commerce

- Developed an e-commerce website using WordPress and WooCommerce.
- Designed a style guide for the 'Simple-Roast' brand, creating a visual guide that can be used by contributors to keep brand consistency in current/future projects.

JavaScript Login

- Created a login system with JavaScript utilizing local and session cookies.
